

GEOTECHNICAL SURVEYS

Ground Penetrating Radar (GPR)

- Ramac GPR Pro Ex System

Seismic refraction and reflection surveys

- Geometrics Geode 24 and 48 channel system
- Hammer, ATV mounted hydraulic, or explosive sources

Shallow IP/resistivity

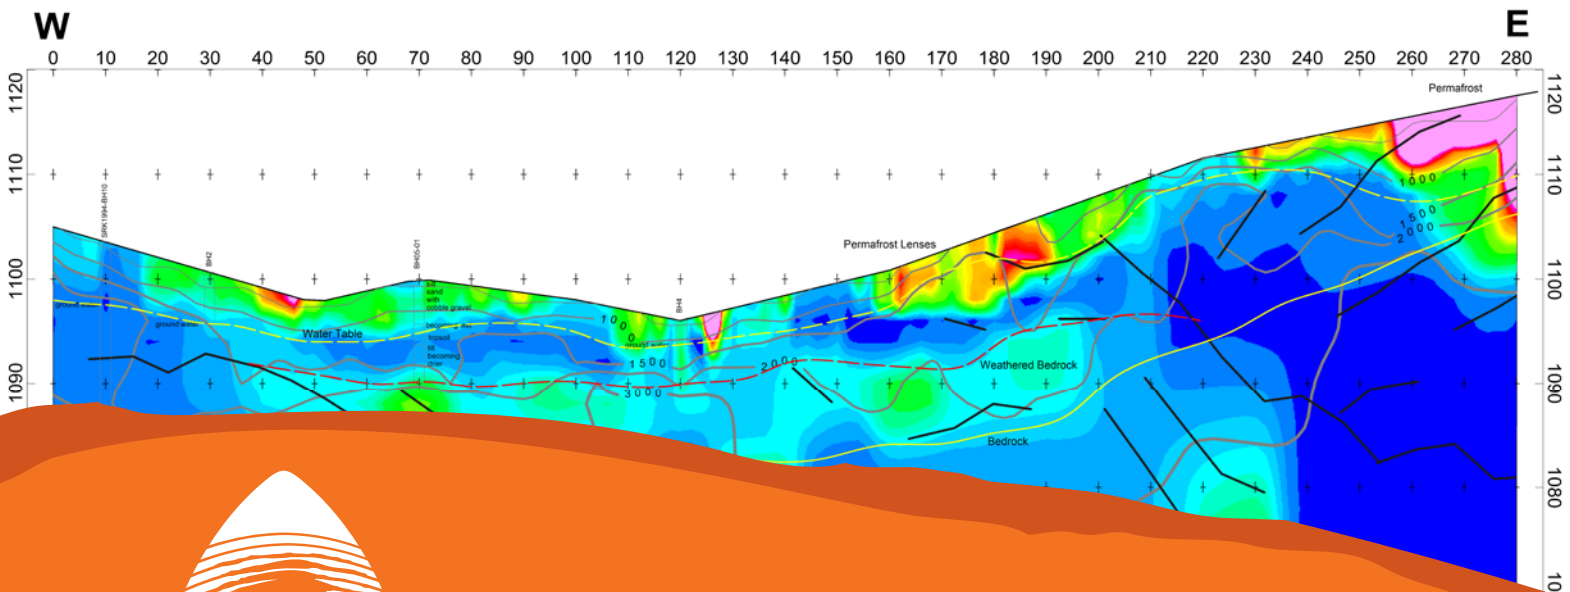

- Syscal Switch and Pro Resistivity and IP Systems

Conductivity meters and metal detectors

- EM31-MK2 and EM61-MK2A systems

Bathymetry

- Lowrance and Airmar single transducer systems couple with DGPS or RTK GPS receivers
