

# TDEM SURVEYS

## Geonics PROTEM system

- System of choice for deep EM investigations and basement sounding
- High power Geonics TEM-67 transmitter system
- Geonics BH43-3 PROTEM borehole probe
- Inductive and galvanic responses
- 1D inversion with INTERPREX IX1D
- Discrete 3D conductor interpretation with MAXWELL software
- 3D visualization of source bodies
- Effective for uranium, Ni-Cu-PGE, VMS and SEDEX type target evaluations
